

Over the last year I have enjoyed the peace and quiet from the privacy act. I am a night shift worker and sleep through the day. I can tell you as a light sleeper that I was disturbed frequently throughout the day from unwanted telephone calls. I have children and a sick mother that kept me from being able to turn my phone off while I slept. Over the last year my sleep interruptions have been significantly decreased. I am a happier and more rested person because of the telemarketers privacy act.

Thank you for listening,
Gayle Romack

Thank you for
